

DISCOVERING GOD'S WORD

Bible Study

PURPOSE

To help boys dig deeply into God's Word to learn more about what He has to say, and to better understand how it all ties together.

LEARNING

It will help if you have your own copy of a study Bible in order to check the Cadet's work. If you don't have one, ask the Cadet to bring the one he used in working on the merit badge. Use the study Bible's information to confirm the boy's answers.

DOING

1. Self-explanatory.
2. Read the passage the boy chose.
 - a. Use a commentary to find out how it explains the difficult passage. Check to see if it explains it the same way the Cadet does.
 - b. If the commentary doesn't explain the passage fully, check the linked passages.
 - c. You might be the person that the Cadet seeks help from. Use a study Bible or commentary to help the boy with the answers; don't just answer from what you think you know. Show him the explanation and make sure he understands.
3. Self-explanatory.
4. Self-explanatory.
5. Set aside some cadre time. Make sure the entire cadre can see that you value Bible study and memorization.
